PROFILE

I began my journey into tech in 2020 when I started to learn UX design. After a few months, I realized I was more interested in the technological side. After learning on my own, I started the Front-End Development bootcamp at Progmatic Academy. This gave me the opportunity to refine both my soft skills and my technical abilities. I'm looking for a Front-End Developer position where I can further improve and be a valuable part of a team.

WORK EXPERIENCE

MAY 2022 - JULY 2022: FRONT-END DEVELOPER, PROGMATIC ACADEMY

Bootcamp final project: we have built a community-based delivery web application.

The web app includes CRUD functions, real-time GPS tracking integrated with Google Maps API, QR-Code based package delivery system and live package tracking with Firebase as the backend system.

My responsibilities included Front-End development, UI design, coordinating a team of 5, mentoring teammates and being the Product Owner.

Metodologies: Scrum, Kanban

Technologies used: HTML, CSS, JS, REACT, git, Firebase, Google Maps API

DECEMBER 2020 - FEBRUARY 2022: SUPERVISOR AND KITCHEN ASSISTANT DELIVEROO EDITIONS, NOTTINGHAM, UK

Training new employees, supervising a team

Cooking, preparing and packing orders for delivery

Stock checks and ordering ingredient

Solving emerging issues around the kitchen

FEBRUARY 2019 - SEPTEMBER 2020: TECHNICAL RECRUITER, JOBSGARDEN RECRUITMENT AGENCY, BUDAPEST

Reporting, analysing data, training new employees, administration, designing online adverts and managing online job advertisements

Arranging job interviews, participating in the selection process for engineering positions
